

DATA SHEET

E-Glass Direct Roving F-165

Product Description

F-165 roving is compatible with epoxy resin systems. F-165 is designed for woven, multi-axial fabric, UD-prepreg, filament winding, and pultrusion applications.

Product Features

- Excellent process characteristics in terms of fuzz generation.
- Fast and good wet out in epoxy resin systems.

Product Specification: Nominal

Characteristics	Unit	F-165			
Tex Count	tex	290	575	1150	2310
Filament Number	--	800	1600	2000	4000
Average Fiber Diameter	μm	13		17	
Roll Height	mm	185	250	265	
Packaging	Rolls/Pallet	80 (4*4*5)	48 (4*4*3)
